

DESIGN YOUR TECH-DAY

Choose 3 products and 1 innovation topics and benefit the most from our tailormade 3+1 Tech-Day!

Enrich yourself and your team with our expert knowledge in design, materials, jointing techniques, fastening solutions, process reliability, areas of application, and other individual questions which are critical to your success.

PRODUCT SOLUTION

- **Koenig-Expander®**
plugs, check valves and flow restrictors for unrivaled quality in sealing and flow control
- **Cam-Safe® grounding connection**
a unique system-based approach to provide electrical grounding in electro-risk applications
- **PEM® self-clinching fasteners**
strong, reusable, and permanent threads in thin sheet metal and PCB materials
- **Rivet technology**
choose one topic: blind rivets/speed rivets/blind rivet nuts/structural rivets/lock bolts
- **Tappex® thread inserts**
precise and durable internal threads in plastics, wood and light material alloys
- **bigHead®**
embedding and surface bonding fasteners for invisible use into the application material
- **Southco®**
a variety of solutions in the area of hinge and locking technology
- **Custom parts**
when a standard part doesn't work – special turned and milled parts by drawing

About the Tech-Day

Duration: approx. 2.5 hours

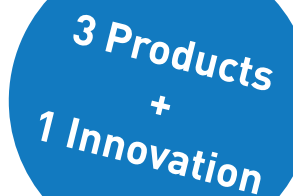

Content: 3 products and 1 innovation content of your choice

Location: Online / at KVT in Linz

INNOVATION

- **MM-Welding®**
technology using ultrasonic energy to create a frictional positive connection in porous and sandwich materials
- **HS- Technik Tools**
programmable battery tools for the reliable and controlled setting of blind rivet nuts, blind rivets, Expander® and Cam-Safe®
- **Smart Factory Logistics**
leaner, smarter and more transparent C-parts management
- **Smart Factory Assembly**
digital transformation of the assembly in line with Industry 4.0
